## Vocabulary

<b>Planet</b>	A large natural object which orbits the sun.
<b>Earth</b>	One of 8 planets that orbit the sun. Life is possible on Earth because there is oxygen in the air and water on the surface.
<b>Ocean</b>	A huge body of salt water.
<b>Sea</b>	A body of salt water, not as large as an ocean and often nearly surrounded by land.
<b>Surface</b>	The outer limit or top layer or something
<b>Habitat</b>	A place where an animal lives. It provides the animal with food, water and shelter.
<b>Marine</b>	A word that describes oceans and seas, where the water is salty.
<b>Zones</b>	The ocean has three main zones where many different animals live.
<b>Creatures</b>	A living person or animal
<b>Exploration</b>	The act of travelling to or searching a place in order to learn more about it.
