

## Year 2/3/4 HOME CHALLENGE

### To make a mode of transport or your favourite scene

This half term we are immersing ourselves in Phileas Fogg's adventure Around the World in Eighty Days. Like Fogg we will be exploring different countries from around the world. He voyaged around the world on trains and steamers as well as an elephant. Your challenge is to use your existing knowledge of the world as well as your new knowledge about Fogg's adventure to make a mode of transportation or to depict your favourite scene.

Use your creative imaginations and think of your own artistic way to make a mode of transport or your favourite scene. Why not dress up as Fogg and take an old fashion style photo or even make a cardboard model train! You could animate Fogg travelling by steamer or build a Lego bus. The choice is yours! I welcome any other creative solutions.

I would love to see your creations back in class by **Wednesday 14th March** for us all to look at.
